VACANCY: Web User Interface Designer

ABM is a global supplier of crime reduction solutions for criminal justice and commercial organisations worldwide (www.abm-uk.com).

We are looking for a creative Web User Interface Designer to join our development team, working with leading edge technology and delivering market leading solutions for the Criminal Justice market.

Candidates will have a minimum of 18-months experience of developing user interfaces for Web-based applications (maybe as part of a final year degree project), good communication skills, excellent problem solving abilities and a creative flair for User Interface design. All candidates will be asked to demonstrate their understanding of:

- Java
- HTML/Dynamic HTML
- JavaScript
- AJAX/RIA
- JSP
- XML/XSLT

Graphical design experience would be advantageous.

We use a wide range of technologies so the role offers the opportunity for the successful individual to embrace these and enhance their skill set. Sun Java certification will also be assisted and encouraged.

How to Apply

Email careers@abm-uk.com with a covering letter and your CV by Friday 2nd October 2009.

Please call ABM's HR department on 0115 977 6999 if you have any queries regarding this vacancy.
